

CHAPTER 27

SHORELAND PROTECTION ORDINANCE

SUBCHAPTER I – STATUTORY AUTHORIZATION, FINDING OF FACT, STATEMENT OF PURPOSE, AND TITLE

- 27.01 Statutory Authorization**
- 27.02 Finding of Fact**
- 27.03 Purpose and Intent**
- 27.04 Title**

SUBCHAPTER II – GENERAL PROVISIONS

- 27.05 Areas to be Regulated**
- 27.06 Shoreland-Wetland Maps**
- 27.07 Compliance**
- 27.08 Municipalities and State Agencies Regulated**
- 27.09 Abrogation and Greater Restrictions**
- 27.10 Interpretation**
- 27.11 Severability**

SUBCHAPTER III – SHORELAND-WETLAND DISTRICT

- 27.12 Designation**
- 27.13 Purpose**
- 27.14 Permitted Uses**
- 27.15 Prohibited Uses**
- 27.16 Rezoning of Lands in the Shoreland-Wetland District**

SUBCHAPTER IV – LAND DIVISION REVIEW AND SANITARY REGULATIONS

- 27.17 Land Division Review**
- 27.18 Planned Unit Development**
- 27.19 Sanitary Regulations**

SUBCHAPTER V – MINIMUM LOT SIZE

- 27.20 Purpose**
- 27.21 Skewered Lots**
- 27.22 Answered Lots**
- 27.23 Substandard Lots**
- 27.24 Other Substandard Lots**

SUBCHAPTER VI – BUILDING SETBACKS

- 27.25 Building Setbacks**
- 27.26 Shoreland Setbacks**
- 27.27 Reduced Structure Setbacks**
- 27.28 Increased Principal Structure Setback**
- 27.29 Floodplain Structures**

SUBCHAPTER VII – VEGETATION

- 27.30 Purpose**
- 27.31 Activities Allowed within a Vegetative Buffer Zone**
- 27.32 Cutting More than 35 feet Inland**

SUBCHAPTER VIII – FILLING, GRADING, PLATOONING, DREDGING, DITCHING, AND EXCAVATING

- 27.33 Filling, Grading, Platooning, Dredging, Ditching, and Excavating**
- 27.34 General Standards**
- 27.35 Permit Required**

27.36 Permit Conditions

SUBCHAPTER IX – IMPERVIOUS SURFACES

27.37 Purpose

27.38 Calculation of Percentage of Impervious Surfaces

27.39 General Impervious Surface Standards

27.40 Impervious Surface Standards for Highly Developed Shorelines

27.41 Maximum Impervious Surface Standard

27.42 Treated Impervious Surfaces

27.43 Existing Impervious Surfaces

SUBCHAPTER X – HEIGHT

27.44 Height

27.45 Structure Height

27.46 Restriction

SUBCHAPTER XI – NONCONFORMING USES AND STRUCTURES

27.47 Discontinued Nonconforming Use

27.48 Maintenance, Repair, Replacement or Vertical Expansion of Nonconforming Structures

27.49 Lateral Expansion of Nonconforming Principal Structures within the Setback

27.50 Expansion of Nonconforming Principal Structures beyond Setback

27.51 Relocation of Nonconforming Principal Structures

SUBCHAPTER XII – MAINTENANCE, REPAIR, REPLACEMENT OR VERTICAL EXPANSION OF STRUCTURES THAT WERE AUTHORIZED BY VARIANCE

27.52 Maintenance, Repair, Replacement or Vertical Expansion of Structures that were Authorized by Variance

SUBCHAPTER XIII – MITIGATION

27.53 Mitigation

27.54 Mitigation Options

SUBCHAPTER XIV – ADMINISTRATIVE PROVISIONS

27.55 Administrative Provisions

27.56 Zoning Administrator

27.57 Permits

27.58 Special Exception Permits

27.59 Variances

27.60 Board of Adjustment

27.61 Fees

27.62 Changes and Amendments

27.63 Enforcement and Penalties

SUBCHAPTER XV – DEFINITIONS

27.64 General

27.65 Definitions

SHORELAND PROTECTION ORDINANCE

SUBCHAPTER I – STATUTORY AUTHORIZATION, FINDING OF FACT, STATEMENT OF PURPOSE, AND TITLE

27.01 Statutory Authorization. This ordinance is adopted pursuant to the authorization in s. 59.692, Stats, to implement 59.692 and 281.31, Stats.

27.02 Finding of Fact. Uncontrolled use of the shorelands and pollution of the navigable waters of Trempealeau County will adversely affect the public health, safety, convenience, and general welfare and impair the tax base. The legislature of Wisconsin has delegated responsibility to the counties to further the maintenance of safe and healthful conditions; prevent and control water pollution; protect spawning grounds, fish and aquatic life; control building sites, placement of structures and land uses; and to preserve shore cover and natural beauty. This responsibility is hereby recognized by Trempealeau County, Wisconsin.

27.03 Statement of Purpose. (NR 115.01) For the purpose of promoting the public health, safety, convenience and welfare, and promote and protect the public trust in navigable waters this ordinance has been established to:

- (1) *Further the Maintenance of Safe and Healthful Conditions and Prevent and Control Water Pollution Through:*
 - (a) Limiting structures to those areas where soil and geological conditions will provide a safe foundation.
 - (b) Establishing minimum lot sizes to provide adequate area for private on-site waste treatment systems.
 - (c) Controlling filling and grading to prevent soil erosion problems.
 - (d) Limiting impervious surfaces to control runoff which carries pollutants.
- (2) *Protect Spawning Grounds, Fish and Aquatic Life Through:*
 - (a) Preserving wetlands and other fish and aquatic habitat.
 - (b) Regulating pollution sources.
 - (c) Controlling shoreline alterations, dredging and lagooning.
- (3) *Control Building Sites, Placement of Structures and Land Uses Through:*
 - (a) Prohibiting certain uses detrimental to the shoreland-wetlands.
 - (b) Setting minimum lot sizes and widths.

- (c) Setting minimum building setbacks from waterways.
 - (d) Setting the maximum height of near shore structures.
- (4) *Preserve and Restore Shoreland Vegetation and Natural Scenic Beauty Through:*
- (a) Restricting the removal of natural shoreland cover.
 - (b) Preventing shoreline encroachment by structures.
 - (c) Controlling shoreland excavation and other earth moving activities.
 - (d) Regulating the use and placement of boathouses and other structures.

27.04 Title. Shoreland Protection Ordinance for Trempealeau County, Wisconsin.

SUBCHAPTER II – GENERAL PROVISIONS

27.05 Areas to be Regulated. Areas regulated by this ordinance shall include all the lands (referred to herein as shorelands) in the unincorporated areas of Trempealeau County which are:

- (1) Within one thousand (1,000) feet of the ordinary high-water mark of navigable lakes, ponds or flowages. (NR 115.03(8))
- (2) Within three hundred (300) feet of the ordinary high-water mark of navigable rivers or streams, or to the landward side of the floodplain, whichever distance is greater. (NR 115.03(8)) Rivers and streams in Trempealeau County shall be presumed to be navigable if they are designated as perennial waterways or intermittent waterways on United States Geological Survey quadrangle maps (1:24,000). Flood hazard boundary maps, flood insurance rate maps, flood boundary floodway maps, county soil survey maps or other existing county floodplain zoning maps shall be used to delineate floodplain areas
- (3) The provisions of this chapter apply to regulation of the use and development of unincorporated shoreland areas. Unless specifically exempted by law, all cities, villages, towns, counties and, when s. 13.48 (13), Stats, applies, state agencies are required to comply with, and obtain all necessary permits under, local shoreland ordinances. The construction, reconstruction, maintenance or repair of state highways and bridges carried out under the direction and supervision of the Wisconsin Department of Transportation is not subject to local shoreland zoning ordinances if s. 30.2022, Stats, applies. (NR 115.02) Shoreland zoning requirements in annexed or incorporated areas are provided in s. 61.353 and s. 62.233, Stats.
- (4) Determinations of navigability and ordinary high-water mark location shall initially be made by the zoning administrator. When questions arise, the zoning administrator shall

contact the appropriate office of the Department for a final determination of navigability or ordinary high-water mark. The county may work with surveyors with regard to s. 59.692(1h).

- (5) Under s. 281.31(2m), Stats, notwithstanding any other provision of law or administrative rule promulgated thereunder, this shoreland zoning ordinance does not apply to:
- (a) Lands adjacent to farm drainage ditches if:
 - (i) Such lands are not adjacent to a natural navigable stream or river;
 - (ii) Those parts of such drainage ditches adjacent to such lands were not navigable streams before ditching; and
 - (b) Lands adjacent to artificially constructed drainage ditches, ponds or stormwater retention basins that are not hydrologically connected to a natural navigable water body.

27.06 Shoreland-Wetland Maps. The most recent version of the Wisconsin Wetland Inventory as depicted on the Department of Natural Resources Surface Water Data Viewer is made part of this ordinance. The maps can be viewed at:

<http://dnrmaps.wi.gov/SL/Viewer.html?Viewer=SWDV&runWorkflow=Wetland>

27.07 Compliance. The use of any land; the size, shape and placement of lots; the use, size, type and location of structures on lots; the installation and maintenance of water supply and waste disposal facilities; the filling, grading, lagooning, and dredging of any lands; the cutting of shoreland vegetation; and the subdivision of lots shall be in full compliance with the terms of this ordinance and other applicable local, state or federal regulations. Buildings and other structures shall require a permit unless otherwise expressly excluded by a provision of this ordinance. Property owners, builders and contractors are responsible for compliance with the terms of this ordinance.

27.08 Municipalities and State Agencies Regulated. Unless specifically exempted by law, all cities, villages, towns, and counties are required to comply with this ordinance and obtain all necessary permits. State agencies are required to comply when s. 13.48(13), Stats, applies. The construction, reconstruction, maintenance and repair of state highways and bridges by the Wisconsin Department of Transportation are exempt when s. 30.2022, Stats, applies.

27.09 Abrogation and Greater Restrictions. (s. 59.692(5), Stats) The provisions of this ordinance supersede any provisions in a county zoning ordinance that solely relate to shorelands. In other words if a zoning standard only applies to lands that lie within the shoreland and applies because the lands are in shoreland, then this ordinance supersedes those provisions. However, where an ordinance adopted under a statute other than s. 59.692, Stats, does not solely relate to shorelands and is more restrictive than this ordinance, for example a floodplain ordinance, that ordinance shall continue in full force and effect to the extent of the greater restrictions.

- (1) (s. 59.692(2)(a), Stats) This ordinance shall not require approval or be subject to disapproval by any town or town board.
- (2) (s. 59.692(2)(b), Stats.) If an existing town ordinance relating to shorelands is more restrictive than this ordinance or any amendments thereto, the town ordinance continues in all respects to the extent of the greater restrictions but not otherwise.
- (3) This ordinance is not intended to repeal, abrogate or impair any existing deed restrictions, covenants or easements. However, where this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.
- (4) The following provisions of the Trempealeau County Zoning Ordinance are hereby incorporated by reference. These provisions shall only apply to the shoreland area where they impose greater restrictions than this ordinance otherwise imposes.
- (5) (s. 59.692(1d)(b), Stats) This ordinance may establish standards to regulate matters that are not regulated in NR 115, but that further the purposes of shoreland zoning as described in section 27.03 of this ordinance,
- (6) (s. 59.692(1k)(a)1, Stats) Counties may not establish shoreland zoning standards in a shoreland zoning ordinance that requires any of the following:
 - (a) Approval to install or maintain outdoor lighting in shorelands, impose any fee or mitigation requirement to install or maintain outdoor lighting in shorelands, or otherwise prohibits or regulates outdoor lighting in shorelands if the lighting is designed or intended for residential use.
 - (b) Requires any inspection or upgrade of a structure before the sale or other transfer of the structure may be made.
- (7) (s.59.692(7), Stats) The construction and maintenance of a facility is considered to satisfy the requirements of a shoreland zoning ordinance if:
 - (a) The department has issued all required permits or approvals authorizing the construction or maintenance under ch. 30, 31, 281, or 283.

A "facility" means any property or equipment of a public utility, as defined in s. 196.01 (5), or a cooperative association organized under ch. 185 for the purpose of producing or furnishing heat, light, or power to its members only, that is used for the transmission, delivery, or furnishing of natural gas, heat, light, or power.

27.10 Interpretation. (59.69(13), Stats) In their interpretation and application, the provisions of this ordinance shall be liberally construed in favor of the county and shall not be deemed a limitation or repeal of any other powers granted by Wisconsin Statutes. Where a provision of this ordinance is required by statute and a standard in ch. NR 115, Wis. Adm. Code, and where the ordinance provision is unclear, the provision shall be interpreted in light of the statute and ch. NR

115 standards in effect on the date of the adoption of this ordinance or in effect on the date of the most recent text amendment to this ordinance.

27.11 Severability. If any portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected.

SUBCHAPTER III – SHORELAND WETLAND DISTRICT (NR 115.04)

27.12 Designation. This district shall include all shorelands within the jurisdiction of this ordinance which are designated as wetlands on the most recent version of the Wisconsin Wetland Inventory as depicted on the Department of Natural Resources Surface Water Data Viewer. http://dnrmaps.wisconsin.gov/sl/?Viewer=SWDV&attributeSearch=WADRS%20Assessment%20Unit%20Lines,assessment_unit_seq_no,14416

(1) *Locating Shoreland Wetland Boundaries.* (NR 115.04(b)2.note) Where an apparent discrepancy exists between the shoreland wetland district boundary shown on the Wisconsin Wetland Inventory and actual field conditions, the county shall contact the Department to determine if the map is in error. If the Department determines that a particular area was incorrectly mapped as wetland or meets the wetland definition but was not shown as wetland on the map, the county shall have the authority to immediately grant or deny a shoreland zoning permit in accordance with the applicable regulations based on the Department determination as to whether the area is wetland. In order to correct wetland mapping errors on the official zoning map, an official zoning map amendment must be initiated within a reasonable period of time.

27.13 Purpose. This district is created to maintain safe and healthful conditions, to prevent water pollution, to protect fish spawning grounds and wildlife habitat, to preserve shore cover and natural beauty and to control building and development in wetlands whenever possible. When development is permitted in a wetland, the development should occur in a manner that minimizes adverse impacts upon the wetland.

27.14 Permitted Uses. (NR 115.04(3)) The following uses shall be allowed, subject to general shoreland zoning regulations contained in this ordinance, the provisions of chs. 30, 31, and 281.36, Stats, and the provisions of other applicable local, state and federal laws:

- (1) Activities and uses which do not require the issuance of a zoning permit, but which must be carried out without any filling, flooding, draining, dredging, ditching, tiling or excavating:
 - (a) Hiking, fishing, trapping, hunting, swimming, and boating;
 - (b) The harvesting of wild crops, such as marsh hay, ferns, moss, wild rice, berries, tree fruits, and tree seeds, in a manner that is not injurious to the natural reproduction of such crops;

- (c) The pasturing of livestock;
 - (d) The cultivation of agricultural crops;
 - (e) The practice of silviculture, including the planting, thinning, and harvesting of timber; and
 - (f) The construction or maintenance of duck blinds.
- (2) Uses which do not require the issuance of a zoning permit and which may include limited filling, flooding, draining, dredging, ditching, tiling, or excavating but only to the extent specifically provided below:
- (a) Temporary water level stabilization measures necessary to alleviate abnormally wet or dry conditions that would have an adverse impact on silvicultural activities if not corrected;
 - (b) The cultivation of cranberries including flooding, dike and dam construction or ditching necessary for the growing and harvesting of cranberries,
 - (c) The maintenance and repair of existing agricultural drainage systems including ditching, tiling, dredging, excavating and filling necessary to maintain the level of drainage required to continue the existing agricultural use. This includes the minimum filling necessary for disposal of dredged spoil adjacent to the drainage system provided that dredged spoil is placed on existing spoil banks where possible;
 - (d) The construction or maintenance of fences for the pasturing of livestock, including limited excavating and filling necessary for such construction or maintenance;
 - (e) The construction or maintenance of piers, docks or walkways built on pilings, including limited excavating and filling necessary for such construction and maintenance; and
 - (f) The maintenance, repair, replacement or reconstruction of existing town and county highways and bridges, including limited excavating and filling necessary for such maintenance, repair, replacement or reconstruction.
- (3) Uses which require the issuance of a zoning permit and which may include limited filling, flooding, draining, dredging, ditching, tiling or excavating, but only to the extent specifically provided below:
- (a) The construction and maintenance of roads which are necessary to conduct silvicultural activities or agricultural cultivation, provided that:
 - (i) The road cannot as a practical matter be located outside the wetland;

- (ii) The road is designed and constructed to minimize adverse impact upon the natural functions of the wetland enumerated in section 27.16(2);
 - (iii) The road is designed and constructed with the minimum cross sectional area practical to serve the intended use; and
 - (iv) Road construction activities are carried out in the immediate area of the roadbed only.
- (b) The construction or maintenance of nonresidential buildings, provided that:
- (i) The building is essential for and used solely in conjunction with the raising of waterfowl, minnows or other wetland or aquatic animals; or some other use permitted in the shoreland wetland district;
 - (ii) The building cannot, as a practical matter, be located outside the wetland;
 - (iii) Such building is not designed for human habitation and does not exceed 500 sq. ft. in floor area; and
 - (iv) Only limited filling or excavating necessary to provide structural support for the building is authorized.
- (c) The establishment of public and private parks and recreation areas, natural and outdoor education areas, historic and scientific areas, wildlife refuges, game bird and animal farms, fur animal farms, fish hatcheries, and public boat launching ramps and attendant access roads, provided that:
- (i) Any private development is used exclusively for the permitted use and the applicant has received a permit or license under ch. 29, Stats, where applicable;
 - (ii) Filling or excavating necessary for the construction or maintenance of public boat launching ramps or attendant access roads is allowed only where such construction or maintenance meets the criteria in section 27.14(3)(a); and
 - (iii) Ditching, excavating, dredging, or dike and dam construction in public and private parks and recreation areas, natural and outdoor education areas, historic and scientific areas, wildlife refuges, game bird and animal farms, fur animal farms, and fish hatcheries is allowed only for the purpose of improving wildlife habitat and to otherwise enhance wetland values.
- (d) The construction or maintenance of electric, gas, telephone, water and sewer transmission and distribution facilities, by public utilities and cooperative associations organized for the purpose of producing or furnishing heat, light, power

or water to their members and the construction or maintenance of railroad lines provided that:

- (i) The transmission and distribution facilities and railroad lines cannot, as a practical matter, be located outside the wetland;
- (ii) Such construction or maintenance is done in a manner designed to minimize adverse impact upon the natural functions of the wetland enumerated in section 27.16(2).

27.15 Prohibited Uses. (NR 115.04(4)) Any use not listed in sections 27.14(1), 27.14(2) or 27.14(3) is prohibited, unless the wetland or portion of the wetland has been rezoned by amendment of this ordinance in accordance with section 27.16 of this ordinance and s. 59.69(5)(e), Stats.

27.16 Rezoning of Lands in the Shoreland Wetland District. (NR 115.04(2))

- (1) For all proposed text and map amendments to the shoreland wetland provisions of this ordinance, the appropriate office with the Department shall be provided with the following:
 - (a) A copy of every petition for a text or map amendment to the shoreland wetland provisions of this ordinance, within 5 days of the filing of such petition with the county clerk. Such petition shall include a copy of the Wisconsin Wetland Inventory map adopted as part of this ordinance describing any proposed rezoning of a shoreland wetland;
 - (b) Written notice of the public hearing to be held on a proposed amendment at least 10 days prior to such hearing;
 - (c) A copy of the county zoning agency's findings and recommendations on each proposed amendment within 10 days after the submission of those findings and recommendations to the county board; and
 - (d) Written notice of the county board's decision on the proposed amendment within 10 days after it is issued.
- (2) A wetland, or a portion thereof, in the shoreland wetland district shall not be rezoned if the proposed rezoning may result in a significant adverse impact upon any of the following:
 - (a) Storm and flood water storage capacity;
 - (b) Maintenance of dry season stream flow, the discharge of groundwater to a wetland, the recharge of groundwater from a wetland to another area, or the flow of groundwater through a wetland;

- (c) Filtering or storage of sediments, nutrients, heavy metals or organic compounds that would otherwise drain into navigable waters;
 - (d) Shoreline protection against soil erosion;
 - (e) Fish spawning, breeding, nursery or feeding grounds;
 - (f) Wildlife habitat; or
 - (g) Wetlands both within the boundary of designated areas of special natural resource interest and those wetlands which are in proximity to or have a direct hydrologic connection to such designated areas as defined in NR 103.04, Wis. Adm. Code, which can be accessed at the following web site: <http://www.legis.state.wi.us/rsb/code/nr/nr103.pdf>.
- (3) If the Department notifies the county zoning agency that a proposed text or map amendment to the shoreland wetland provisions of this ordinance may have a significant adverse impact upon any of the criteria listed in section 27.16(2) of this ordinance, that amendment, if approved by the county board, shall contain the following provision:

"This amendment shall not take effect until more than 30 days have elapsed after written notice of the county board's approval of this amendment is mailed to the Department of Natural Resources. During that 30 day period the Department of Natural Resources may notify the county board that it will adopt a superseding shoreland ordinance for the county under s. 59.692(6), Stats. If the Department does so notify the county board, the effect of this amendment shall be stayed until the s. 59.692(6), Stats, adoption procedure is completed or otherwise terminated."

SUBCHAPTER IV – LAND DIVISION REVIEW AND SANITARY REGULATIONS. (NR 115.05(2))

27.17 Land Division Review. (NR 115.05(2)) The county shall review, pursuant to s. 236.45, Stats, all land divisions in shoreland areas which create 3 or more parcels or building sites of 5 acres each or less within a 5 year period. In such review all of the following factors shall be considered:

- (1) Hazards to the health, safety or welfare of future residents.
- (2) Proper relationship to adjoining areas.
- (3) Public access to navigable waters, as required by law.
- (4) Adequate stormwater drainage facilities.

- (5) Conformity to state law and administrative code provisions.

27.18 Planned Unit Development (PUD). (NR 115.05(1)(a)4)

- (1) *Purpose.* The Planned Unit Development is intended to permit smaller non-riparian lots where the physical layout of the lots is so arranged as to better assure the control of pollution and preservation of ground cover than would be expected if the lots were developed with the normal lot sizes and setbacks and without special conditions placed upon the Planned Unit Development at the time of its approval. A condition of all Planned Residential Unit Development is the preservation of certain open space, preferably on the shoreland, in perpetuity.
- (2) *Requirements for Planned Unit Development.* The county Planning and Zoning Committee may at its discretion, upon its own motion or upon petition, approve a Planned Unit Development Overlay District upon finding, after a public hearing, that all of the following facts exist:
 - (a) *Area.* The area proposed for the Planned Unit Development shall be at least 2 acres in size or have a minimum of 200 feet of frontage on a navigable water.
 - (b) *Lots.* Any proposed lot in the Planned Unit Development that does not meet the minimum size standards of sections 27.21 and 27.22 shall be a non-riparian lot.
 - (c) *Lot sizes, widths, setbacks, and vegetation removal.* When considering approval of a Planned Unit Development the governing body shall consider whether proposed lot sizes, widths, and setbacks are of adequate size and distance to prevent pollution or erosion along streets or other public ways and waterways. Increased shoreland setbacks shall be a condition of approval as a way of minimizing adverse impacts of development. Shore cover provisions in section 27.31 shall apply except that maximum width of a lake frontage opening shall be 100 feet and minimum vegetative buffer depth shall be increased to offset the impact of the proposed development.

27.19 Sanitary Regulations. (NR 115.05(3)) The county shall adopt sanitary regulations for the protection of health and the preservation and enhancement of water quality.

- (1) Where public water supply systems are not available, private well construction shall be required to conform to ch. NR 812, Wis. Adm. Code.
- (2) Where a public sewage collection and treatment system is not available, design and construction of private on-site waste treatment system shall, prior to July 1, 1980, be required to comply with ch. SPS Comm 383, Wis. Adm. Code, and after June 30, 1980 be governed by a private sewage system ordinance adopted by the county under s. 59.70(5), Stats.

SUBCHAPTER V – MINIMUM LOT SIZE. (NR 115.05(1))

NOTE: For all other Lot Requirements, Please refer to the Trempealeau County Comprehensive Zoning Ordinance: Chapter 3.03- Lot Requirements

27.20 Purpose. (NR115.05(1)(a)) Minimum lot sizes in the shoreland area shall be established to afford protection against danger to health, safety and welfare, and protection against pollution of the adjacent body of water. In calculating the minimum area or width of a lot, the beds of navigable waters shall not be included.

27.21 Sewered Lots. (NR 115.05(1)(a)1) **MINIMUM AREA AND WIDTH FOR EACH LOT.** The minimum lot area shall be 10,000 sq. ft. and the minimum average lot width shall be 65 feet.

- (1) The width shall be calculated by averaging the measurements at the following locations:
 - (a) The ordinary high water mark
 - (b) The building setback line
 - (c) The rear lot line

27.22 Unsewered Lots. (NR 115.05(1)(a)2) **MINIMUM AREA AND WIDTH FOR EACH LOT.** The minimum lot area shall be 20,000 sq. ft. and the minimum average lot width shall be 100 feet.

- (1) The width shall be calculated by averaging the measurements at the following locations:
 - (a) The ordinary high water mark
 - (b) The building setback line
 - (c) The rear lot line

27.23 Substandard Lots. (NR 115.05(1)(a)3) A legally created lot or parcel that met minimum area and minimum average width requirements when created, but does not meet current lot size requirements, may be used as a building site if all of the following apply:

- (1) The substandard lot or parcel was never reconfigured or combined with another lot or parcel by plat, survey, or consolidation by the owner into one property tax parcel.
- (2) The substandard lot or parcel has never been developed with one or more of its structures placed partly upon an adjacent lot or parcel.
- (3) The substandard lot or parcel is developed to comply with all other ordinance requirements.

27.24 Other Substandard Lots. Except for lots which meet the requirements of section 27.23 a building permit for the improvement of a lot having lesser dimensions than those stated in sections 27.21 and 27.22 shall be issued only if a variance is granted by the board of adjustment.

SUBCHAPTER VI – BUILDING SETBACKS

NOTE: For all other Setback Requirements, Please refer to the Trempealeau County Comprehensive Zoning Ordinance: Chapter 3- General Requirements

27.25 Building Setbacks. (NR 115.05(1)(b)) Permitted building setbacks shall be established to conform to health, safety and welfare requirements, preserve natural beauty, reduce flood hazards and avoid water pollution.

27.26 Shoreland Setbacks. (NR115.05(1)(b)1) Unless exempt under section 27.26(1), or reduced under section 27.27, or increased under section 27.28, a setback of 75 feet from the ordinary high-water mark of any navigable water to the nearest part of a building or structure shall be required for all buildings and structures.

- (1) *Exempt Structures.* (NR 115.05(1)(b)1m) and s. 59.692(1k)(a)(6). All of the following structures are exempt from the shoreland setback standards in section 27.26:
- (a) Boathouses located entirely above the ordinary high water mark and entirely within the access and viewing corridor that do not contain plumbing and are not used for human habitation. The roof of a boathouse may be used as a deck provided that:
 - (i) The boathouse has a flat roof.
 - (ii) The roof has no side walls or screens.
 - (iii) The roof may have a railing that meets the Department of Safety and Professional Services standards.
 - (b) Open-sided and screened structures such as gazebos, decks, patios and screen houses in the shoreland setback area that satisfy the requirements in s. 59.692(1v), Stats:
 - (i) The part of the structure that is nearest to the water is located at least 35 feet landward from the ordinary-high water mark.
 - (ii) The floor area of all the structures in the shoreland setback area will not exceed 200 square feet.
 - (iii) The structure that is the subject of the request for special zoning permission has no sides or has open or screened sides.

- (iv) The county must approve a plan that will be implemented by the owner of the property to preserve or establish a vegetative buffer zone that covers at least 70% of the half of the shoreland setback area that is nearest to the water.
- (v) An enforceable affidavit must be filed with the register of deeds prior to construction acknowledging the limitations on vegetation.
- (c) Fishing rafts that are authorized on the Wolf River and Mississippi River under s. 30.126, Stats.
- (d) Broadcast signal receivers, including satellite dishes or antennas that are one meter or less in diameter and satellite earth station antennas that are 2 meters or less in diameter.
- (e) Utility transmission and distribution lines, poles, towers, water towers, pumping stations, well pumphouse covers, private on-site wastewater treatment systems that comply with ch. SPS Comm 383, Wis. Adm. Code, and other utility structures that have no feasible alternative location outside of the minimum setback and that employ best management practices to infiltrate or otherwise control storm water runoff from the structure.
- (f) Walkways, stairways or rail systems that are necessary to provide pedestrian access to the shoreline and are a maximum of 60-inches in width.
- (g) Devices or systems used to treat runoff from impervious surfaces.
- (2) *Existing Exempt Structures.* (s.59.692(1k)(a)2m, Stats) Existing exempt structures may be maintained, repaired, replaced, restored, rebuilt and remodeled provided the activity does not expand the footprint and does not go beyond the three-dimensional building envelope of the existing structure. Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements.

27.27 Reduced Principal Structure Setback. (s.59.692(1n), Stats) A setback less than the 75' required setback from the ordinary high water mark shall be permitted for a proposed principal structure and shall be determined as follows:

- (1) Where there are existing principal structures in both directions, the setback shall equal the average of the distances the two existing principal structures are set back from the ordinary high water mark provided all of the following are met:
 - (a) Both of the existing principal structures are located on adjacent lot to the proposed principal structure.

- (b) Both of the existing principal structures are located within 250' of the proposed principal structure and are the closest structure.
 - (c) Both of the existing principal structures are located less than 75' from the ordinary high water mark.
 - (d) The average setback shall not be reduced to less than 35' from the ordinary high water mark of any navigable water.
- (2) Where there is an existing principal structure in only one direction, the setback shall equal the distance the existing principal structure is set back from the ordinary high water mark and the required setback of 75' from the ordinary high water mark provided all of the following are met:
- (a) The existing principal structure is located on adjacent lot to the proposed principal structure.
 - (b) The existing principal structure is located within 250' of the proposed principal structure and is the closest structure.
 - (c) The existing principal structure is located less than 75' from the ordinary high water mark.
 - (d) The average setback shall not be reduced to less than 35' from the ordinary high water mark of any navigable water.

27.28 Increased Principal Structure Setback. (s.59.692(1n)(c), Stats) A setback greater than the required 75' from the ordinary high water mark may be required for a proposed principal structure and determined as follows:

- (1) Where there are existing principal structures in both directions, the setback shall equal the average of the distances the two existing principal structures are set back from the ordinary high water mark provided all of the following are met:
- (a) Both of the existing principal structures are located on adjacent lot to the proposed principal structure.
 - (b) Both of the existing principal structures are located within 200' of the proposed principal structure.
 - (c) Both of the existing principal structures are located greater than 75' from the ordinary high water mark.
 - (d) Both of the existing principal structures were required to be located at a setback greater than 75' from the ordinary high water mark.

- (e) The increased setback does not apply if the resulting setback limits the placement to an area on which the structure cannot be built.

27.29 Floodplain Structures. (NR 115.05(1)(b)2) Buildings and structures to be constructed or placed in a floodplain shall be required to comply with any applicable floodplain zoning ordinance.

SUBCHAPTER VII – VEGETATION. (NR 115.05(1)(c))

27.30 Purpose. (NR 115.05(1)(c)1) To protect natural scenic beauty, fish and wildlife habitat, and water quality, a county shall regulate removal of vegetation in shoreland areas, consistent with the following: The county shall establish ordinance standards that consider sound forestry and soil conservation practices, as well as the effect of vegetation removal on water quality, including soil erosion, and the flow of effluents, sediments and nutrients.

27.31 Activities Allowed within a Vegetative Buffer Zone. (NR 115.05(1)(c)2) To protect water quality, fish and wildlife habitat and natural scenic beauty, and to promote preservation and restoration of native vegetation, the county ordinance shall designate land that extends from the ordinary high water mark to a minimum of 35 feet inland as a vegetative buffer zone and prohibit removal of vegetation in the vegetative buffer zone except as follows:

- (1) The county may allow routine maintenance of vegetation.
- (2) The county may allow removal of trees and shrubs in the vegetative buffer zone to create access and viewing corridors. Per s. 59.692(1f)(b), Stats, the viewing corridor may be at least 35 feet wide for every 100 feet of shoreline frontage. The viewing corridor may run contiguously for the entire maximum width of shoreline frontage owned.
- (3) The county may allow removal of trees and shrubs in the vegetative buffer zone on a parcel with 10 or more acres of forested land consistent with “generally accepted forestry management practices” as defined in s. NR 1.25 (2) (b), Wis. Adm. Code, and described in Department publication “Wisconsin Forest Management Guidelines” (publication FR-226), provided that vegetation removal be consistent with these practices.
- (4) The county may allow removal of vegetation within the vegetative buffer zone to manage exotic or invasive species, damaged vegetation, vegetation that must be removed to control disease, or vegetation creating an imminent safety hazard, provided that any vegetation removed be replaced by replanting in the same area as soon as practicable.
- (5) The county may authorize by permit additional vegetation management activities in the vegetative buffer zone. The permit issued under this subd. par. shall require that all management activities comply with detailed plans approved by the county and designed to control erosion by limiting sedimentation into the waterbody, to improve the plant community by replanting in the same area, and to maintain and monitor the newly restored

area. The permit also shall require an enforceable restriction to preserve the newly restored area.

27.32 Cutting More Than 35 Feet Inland. From the inland edge of the 35 foot area to the outer limits of the shoreland, the cutting of vegetation shall be allowed when accomplished using accepted forest management and soil conservation practices which protect water quality.

SUBCHAPTER VIII – FILLING, GRADING, LAGOONING, DREDGING, DITCHING AND EXCAVATING.

27.33 Filling, Grading, Lagooning, Dredging, Ditching and Excavating. (NR115.05(1)(d)) Filling, grading, lagooning, dredging, ditching and excavating may be permitted only in accordance with the provisions of s. NR 115.04, the requirements of ch. 30, Stats, and other state and federal laws where applicable, and only if done in a manner designed to minimize erosion, sedimentation and impairment of fish and wildlife habitat and natural scenic beauty.

27.34 General Standards. Filling, grading, lagooning, dredging, ditching or excavating which does not require a permit under section 27.35 may be permitted in the shoreland area provided that:

- (1) It is not done within the vegetative buffer zone unless necessary for establishing or expanding the vegetative buffer.
- (2) It is done in a manner designed to minimize erosion, sedimentation and impairment of fish and wildlife habitat.
- (3) Filling, grading, lagooning, dredging, ditching or excavating in a shoreland wetland district meets the requirements of sections 27.14(2) and 27.14(3) of this ordinance.
- (4) All applicable federal, state and local authority is obtained in addition to a permit under this ordinance.
- (5) Any fill placed in the shoreland area is protected against erosion by the use of riprap, vegetative cover or a bulkhead.

27.35 Permit Required. Except as provided in section 27.34 a permit is required:

- (1) For any filling or grading of any area which is within 300 feet landward of the ordinary high water mark of navigable water and which has surface drainage toward the water and on which there is either:
 - (a) Any filling or grading on slopes of more than 20%.
 - (b) Filling or grading of more than 1,000 sq. ft. on slopes of 12% to 20%.
 - (c) Filling or grading of more than 2,000 sq. ft. on slopes less than 12%.

- (2) For any construction or dredging commenced on any artificial waterway, canal, ditch, lagoon, pond, lake or similar waterway which is within 300 feet landward of the ordinary high water mark of a navigable body of water or where the purpose is the ultimate connection with a navigable body of water.

27.36 Permit Conditions. In granting a permit under section 27.35, the County shall attach the following conditions, where appropriate, in addition to those provisions specified in sections 27.57 or 27.59.

- (1) The smallest amount of bare ground shall be exposed for as short a time as feasible.
- (2) Temporary ground cover (such as mulch or jute netting) shall be used and permanent vegetative cover shall be established.
- (3) Diversion berms or bales, silting basins, terraces, filter fabric fencing, and other methods shall be used to prevent erosion.
- (4) Lagoons shall be constructed to avoid fish trap conditions.
- (5) Fill shall be stabilized according to accepted engineering standards.
- (6) Filling shall comply with any local floodplain zoning ordinance and shall not restrict a floodway or destroy the flood storage capacity of a floodplain.
- (7) Channels or artificial watercourses shall be constructed with side slopes of two (2) units horizontal distance to one (1) unit vertical or flatter which shall be promptly vegetated, unless bulkheads or riprap are provided.

SUBCHAPTER IX – IMPERVIOUS SURFACE STANDARDS. (NR 115.05(1)(e))

27.37 Purpose. Establish impervious surface standards to protect water quality and fish and wildlife habitat and to protect against pollution of navigable waters. County impervious surface standards shall apply to the construction, reconstruction, expansion, replacement or relocation of any impervious surface on a riparian lot or parcel and any nonriparian lot or parcel that is located entirely within 300 feet of the ordinary high-water mark of any navigable waterway.

27.38 Calculation of Percentage of Impervious Surface. (NR 115.05(1)(e)1) Percentage of impervious surface shall be calculated by dividing the surface area of the existing and proposed impervious surfaces on the portion of a lot or parcel that is within 300 feet of the ordinary high-water mark by the total surface area of that lot or parcel, and multiplied by 100. Impervious surfaces described in section 27.42 shall be excluded from the calculation of impervious surface on the lot or parcel. If an outlot lies between the ordinary high water mark and the developable lot or parcel and both are in common ownership, the lot or parcel and the outlot shall be considered one lot or parcel for the purposes of calculating the percentage of impervious surface.

27.39 General Impervious Surface Standard. (NR 115.05(1)(e)2) Except as otherwise allowed in sections 27.40 through 27.42, the county shall allow up to 15% impervious surface on the portion of a lot or parcel that is within 300 feet of the ordinary high-water mark.

27.40 Impervious Surface Standard for Highly Developed Shorelines. (NR 115.05(1)(e)2m and s. 59.692(1k)(am)2, Stats) The county at its discretion may adopt an ordinance for highly developed shorelines allowing up to 30% for residential land use and up to 40% for commercial, industrial or business land uses for lands that meets one of the following standards:

- (1) The highly developed shoreline is identified as an Urbanized Area or Urban Cluster in the 2010 US Census or has a commercial, industrial, or business land use as of January 31, 2013.
- (2) After conducting a hearing and receiving approval by the department of natural resources, the county has mapped additional areas of highly developed shorelines that are at least 500 feet in length and meet the one of the following criteria:
 - (a) The majority of the lots are developed with more than 30% of impervious surface area.
 - (b) Located on a lake served by a sewerage system as defined in NR 110.03(30), Wis. Adm. Code.
 - (c) The majority of the lots contain less than 20,000 square feet in area.

27.41 Maximum Impervious Surface Standard. (NR 115.05(1)(e)3) A property may exceed the impervious surface standard under 27.39 or 27.40 provided the following standards are met:

- (1) For properties where the general impervious surface standard applies under section 27.39, a property owner may have more than 15% impervious surface but not more than 30% impervious surface on the portion of a lot or parcel that is within 300 feet of the ordinary high-water mark.
- (2) For properties on shorelands where the impervious surface standard for highly developed shorelines applies under 27.40, a property owner may have more than 30% impervious surface but not more than 40% impervious surface for residential land uses. For commercial, industrial or business land uses a property owner may have more than 40% impervious surface but not more than 60% impervious surface.
- (3) For properties that exceed the standard under 27.39 or 27.40 but do not exceed the maximum standard under 27.41(1) or 27.41(2), a permit can be issued for development with a mitigation plan that meets the standards found in Subchapter XIII.

27.42 Treated Impervious Surfaces. (NR115.05(1)(e)3m and s. 59.692(1k)(a)5, Stats) Impervious surfaces that can be documented to demonstrate they meet either of the following standards shall be excluded from the impervious surface calculations under section 27.38:

- (1) The impervious surface is treated by devices such as stormwater ponds, constructed wetlands, infiltration basins, rain gardens, bio-swales or other engineered systems.
- (2) The runoff from the impervious surface discharges to an internally drained pervious area that retains the runoff on or off the parcel and allows infiltration into the soil.
- (3) To qualify for the statutory exemption, property owners shall submit a complete permit application that is reviewed and approved by the county. The application shall include:
 - (a) Calculations showing how much runoff is coming from the impervious surface area;
 - (b) Documentation that the runoff from the impervious surface is being treated by a proposed treatment system, treatment device, or internally drained area;
 - (c) An implementation schedule and enforceable obligation on the property owner to establish and maintain the treatment system, treatment devices, or internally drained area. The enforceable obligations shall be evidenced by an instrument recorded in the office of the Register of Deeds prior to the issuance of the permit.

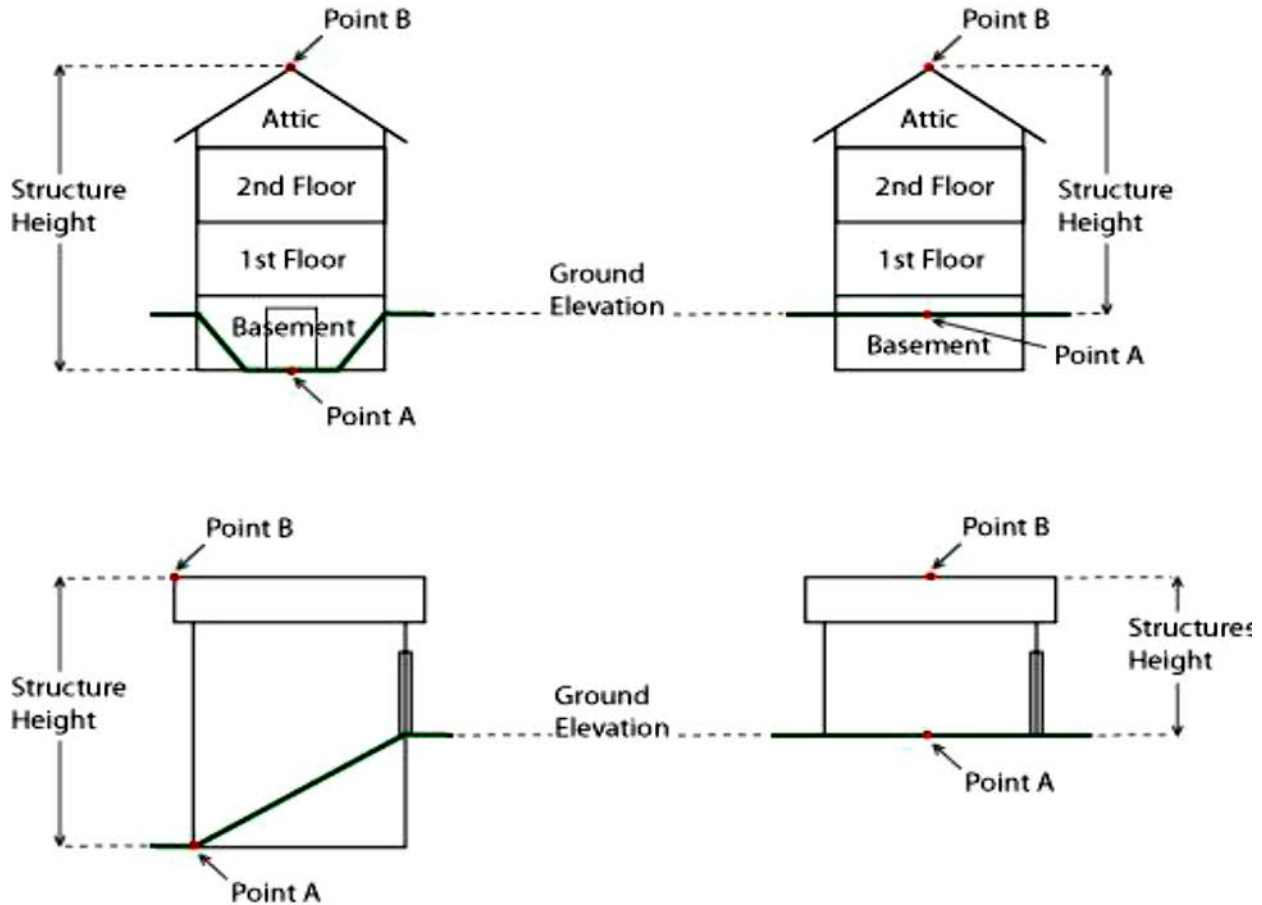

27.43 Existing Impervious Surfaces. (NR 115.05(1)(e)4) For existing impervious surfaces that were lawfully placed when constructed but that do not comply with the impervious surface standard in section 27.39 or the maximum impervious surface standard in section 27.41, the property owner may do any of the following:

- (1) Maintain and repair the existing impervious surfaces;
- (2) Replace existing impervious surfaces with similar surfaces within the existing building envelope; or
- (3) Relocate or modify an existing impervious surface with similar or different impervious surface, provided that the relocation or modification does not result in an increase in the percentage of impervious surface that existed on the effective date of the county shoreland ordinance, and the impervious surface meets the applicable setback requirements in sections 27.26 or 27.27.

SUBCHAPTER X – HEIGHT

27.44 Height. (NR 115.05(1)(f)) To protect and preserve wildlife habitat and natural scenic beauty, on or after February 1, 2010, a county may not permit any construction that results in a structure taller than 35 feet within 75 feet of the ordinary high-water mark of any navigable waters.

27.45 Structure Height. Structure height is the measurement of the vertical line segment starting at the lowest point of any exposed wall and its intersect with the ground (Point A in the following diagram) to a line horizontal to the highest point of a structure (Point B in the following diagram), unless specified under other sections of this code.

27.46 Restriction. To protect and preserve wildlife habitat and natural scenic beauty, a county may not permit any construction that results in a structure outside of the 75 foot shoreland setback taller than 35 feet.

SUBCHAPTER XI – NONCONFORMING USES AND STRUCTURES. (NR 115.05(1)(g))

27.47 Discontinued Nonconforming Use. (NR 115.05(1)(g)3) If a nonconforming use is discontinued for a period of 12 months, any future use of the building, structure or property shall conform to the ordinance.

27.48 Maintenance, Repair, Replacement or Vertical Expansion of Nonconforming Structures. (s. 59.692(1k)(a)2,4 and (b), Stats) An existing structure that was lawfully placed when constructed but that does not comply with the required shoreland setback may be maintained, repaired, replaced, restored, rebuilt or remodeled if the activity does not expand the footprint of

the nonconforming structure. Further, an existing structure that was lawfully placed when constructed but that does not comply with the required shoreland setback may be vertically expanded unless the vertical expansion would extend more than 35 feet above grade level. Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements.

27.49 Lateral Expansion of Nonconforming Principal Structures within the Setback. (NR 115.05(1)(g)5) An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback per section 27.26 may be expanded laterally, provided that all of the following requirements are met:

- (1) The use of the structure has not been discontinued for a period of 12 months or more if a nonconforming use.
- (2) The existing principal structure is at least 35 feet from the ordinary high-water mark.
- (3) Lateral expansions are limited to a maximum of 200 square feet over the life of the structure. No portion of the expansion may be any closer to the ordinary high-water mark than the closest point of the existing principal structure.
- (4) The county shall issue a permit that requires a mitigation plan that shall be approved by the county and implemented by the property owner by the date specified in the permit. The mitigation plan shall meet the standards found in section 27.53.
- (5) All other provisions of the shoreland ordinance shall be met.

27.50 Expansion of a Nonconforming Principal Structures Beyond Setback. (NR 115.05(1)(g)5m) An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback under section 27.26 may be expanded horizontally, landward, or vertically provided that the expanded area meets the building setback requirements per section 27.26 and that all other provisions of the shoreland ordinance are met. A mitigation plan is not required solely for expansion under this paragraph, but may be required per Subchapter IX.

27.51 Relocation of Nonconforming Principal Structures. (NR 115.05(1)(g)6) An existing principal structure that was lawfully placed when constructed but that does not comply with the required building setback per section 27.26 may be relocated on the property provided all of the following requirements are met:

- (1) The use of the structure has not been discontinued for a period of 12 months or more if a nonconforming use.
- (2) The existing principal structure is at least 35 feet from the ordinary high-water mark.
- (3) No portion of the relocated structure is located any closer to the ordinary high-water mark than the closest point of the existing principal structure.

- (4) The county determines that no other location is available on the property to build a principal structure of the same footprint of the proposed structure for relocation that will result in compliance with the shoreland setback requirement per section 27.26.
- (5) The county shall issue a permit that requires a mitigation plan that shall be approved by the county and implemented by the property owner by the date specified in the permit. The mitigation plan shall meet the standards found in Subchapter XIII, and include enforceable obligations of the property owner to establish or maintain measures that the county determines are adequate to offset the impacts of the permitted expansion on water quality, near-shore aquatic habitat, upland wildlife habitat and natural scenic beauty. The mitigation measures shall be proportional to the amount and impacts of the replaced or relocated structure being permitted. The obligations of the property owner under the mitigation plan shall be evidenced by an instrument recorded in the office of the County Register of Deeds.
- (6) All other provisions of the shoreland ordinance shall be met.

**SUBCHAPTER XII – MAINTENANCE, REPAIR, REPLACEMENT OR VERTICAL EXPANSION OF STRUCTURES THAT WERE AUTHORIZED BY VARIANCE.
(s. 59.692(1k)(a)2. and (a)4.)**

27.52 Maintenance, Repair, Replacement or Vertical Expansion of Structures that were Authorized by Variance. (s. 59.692(1k)(a)2. and (a)4.) A structure of which any part has been authorized to be located within the shoreland setback area by a variance granted before July 13, 2015 may be maintained, repaired, replaced, restored, rebuilt or remodeled if the activity does not expand the footprint of the authorized structure. Additionally, the structure may be vertically expanded unless the vertical expansion would extend more than 35 feet above grade level. Counties may allow expansion of a structure beyond the existing footprint if the expansion is necessary to comply with applicable state or federal requirements.

SUBCHAPTER XIII - MITIGATION

27.53 Mitigation. (NR 115.05 (1)(e)3, (g)5, (g)6) When the county issues a permit requiring mitigation under sections 9.5, 11.3 and 11.5 the property owner must submit a complete permit application that is reviewed and approved by the county. The definition of “*Mitigation*” (NR 115.03(4r)) means balancing measures that are designed, implemented and function to restore natural functions and values that are otherwise lost through development and human activities. The application shall include the following:

- (1) A site plan that describes the proposed mitigation measures.
 - (a) The site plan shall be designed and implemented to restore natural functions lost through development and human activities.

- (b) The mitigation measures shall be proportional in scope to the impacts on water quality, near-shore aquatic habitat, upland wildlife habitat and natural scenic beauty.
- (2) An implementation schedule and enforceable obligation on the property owner to establish and maintain the mitigation measures.
- (a) The enforceable obligations shall be evidenced by an instrument recorded in the office of the Register of Deeds.

27.54 Mitigation Options.

- (1) Lateral expansion of principle structure located between 35 and 75 feet from the OHWM. The property owner shall choose and implement 2 of the following:
- (a) *Accessory Structures*- removal of all non-conforming accessory structures located in the shore setback area. This requirement shall not apply to a detached garage, which is in good repair and located at least as far from the OHWM as the principal structure on the property.
 - (b) *Vegetative Buffer*- Restoration and/or maintenance of native primary vegetative buffer to County vegetative buffer standards per Subchapter VII.
 - (c) *Stormwater*- Stormwater management practices (ex. rain gardens, water diversions of overland flow).
- (2) Replacement or relocation of principle structure located between 35 and 75 feet from the OHWM and which is less than 35 feet in height. The property owner shall choose and implement 2 of the following:
- (a) *Accessory Structures*- removal of all non-conforming accessory structures located in the shore setback area. This requirement shall not apply to a detached garage, which is in good repair and located at least as far from the OHWM as the principal structure on the property.
 - (b) *Vegetative Buffer*- Restoration and/or maintenance of native primary vegetative buffer to County vegetative buffer standards per Subchapter VII.
 - (c) *Stormwater*- Stormwater management practices (ex. rain gardens, water diversions of overland flow).
- (3) Impervious surface area greater than 15 percent and or less than or equal to 30 percent. The property owner shall choose and implement 2 of the following:
- (a) *Accessory Structures*- removal of all non-conforming accessory structures located in the shore setback area. This requirement shall not apply to a detached garage,

which is in good repair and located at least as far from the OHWM as the principal structure on the property.

- (b) *Vegetative Buffer*- Restoration and/or maintenance of native primary vegetative buffer to County vegetative buffer standards per Subchapter VII.
- (c) *Stormwater*- Stormwater management practices (ex. rain gardens, water diversions of overland flow).

SUBCHAPTER XIV – ADMINISTRATIVE PROVISIONS

27.55 Administrative Provisions. (NR 115.05(4)) The shoreland zoning ordinance adopted by each county shall require all of the following:

- (1) The appointment of an administrator and such additional staff as the workload may require.
- (2) The creation of a zoning agency as authorized by s. 59.69, Stats, a board of adjustment as authorized by s. 59.694, Stat., and a county planning agency as defined in s. 236.02(3), Stats, and required by s. 59.692(3), Stats.
- (3) A system of permits for all new construction, development, reconstruction, structural alteration or moving of buildings and structures. A copy of applications shall be required to be filed in the office of the county zoning administrator, unless prohibited by s. 59.692(1k), Stats.
- (4) Regular inspection of permitted work in progress to insure conformity of the finished structures with the terms of the ordinance.
- (5) A variance procedure which authorizes the board of adjustment to grant such variance from the terms of the ordinance as will not be contrary to the public interest where, owing to special conditions and the adoption of the shoreland zoning ordinance, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship as long as the granting of a variance does not have the effect of granting or increasing any use of property which is prohibited in that zoning district by the shoreland zoning ordinance.
- (6) A special exception (conditional use) procedure for uses presenting special problems.
- (7) The county shall keep a complete record of all proceedings before the board of adjustment, zoning agency and planning agency.
- (8) Written notice to the appropriate office of the Department at least 10 days prior to any hearing on a proposed variance, special exception or conditional use permit, appeal for a map or text interpretation, map or text amendment, and copies of all proposed land divisions submitted to the county for review under Subchapter IV.

- (9) Submission to the appropriate office of the Department, within 10 days after grant or denial, copies of any decision on a variance, special exception or conditional use permit, or appeal for a map or text interpretation, and any decision to amend a map or text of an ordinance.
- (10) Development and maintenance of an official map of all mapped zoning district boundaries, amendments, and recordings.
- (11) The establishment of appropriate penalties for violations of various provisions of the ordinance, including forfeitures. Compliance with the ordinance shall be enforceable by the use of injunctions to prevent or abate a violation, as provided in s. 59.69 (11), Stats.
- (12) Pursuing the prosecution of violations of the shoreland ordinance
- (13) Shoreland wetland map amendments according to s. NR 115.04. Every petition for a shoreland-wetland map amendment filed with the county clerk shall be referred to the county zoning agency. A copy of each petition shall be provided to the appropriate office of the Department within 5 days of the filing of the petition with the county clerk. Written notice of the public hearing to be held on a proposed amendment shall be provided to the appropriate office of the Department at least 10 days prior to the hearing. A copy of the county board's decision on each proposed amendment shall be forwarded to the appropriate office of the Department within 10 days after the decision is issued.

27.56 Zoning Administrator. (NR 115.05(4)) The zoning administrator shall have the following duties and powers:

- (1) Develop and maintain a system of permits for new construction, development, reconstruction, structural alteration or moving of buildings and structures. A copy of applications shall be required to be filed in the office of the county zoning administrator.
- (2) Regularly inspect permitted work in progress to insure conformity of the finished structures with the terms of the ordinance.
- (3) Develop and maintain a variance procedure which authorizes the board of adjustment to grant such variance from the terms of the ordinance as will not be contrary to the public interest where, owing to special conditions and the adoption of the shoreland zoning ordinance, a literal enforcement of the provisions of the ordinance will result in unnecessary hardship.
- (4) Develop and maintain a special exception (conditional use) procedure.
- (5) Keep a complete record of all proceedings before the board of adjustment, zoning agency and planning agency.
- (6) Provide written notice to the appropriate office of the Department at least 10 days prior to any hearing on a requested variance, special exception or conditional use permit, appeal

for a map or text interpretation, map or text amendment, and copies of all proposed land divisions submitted to the county for review under Subchapter IV.

- (7) Submit to the appropriate office of the Department, within 10 days after grant or denial, any decision on a variance, special exception or conditional use permit, or appeal for a map or text interpretation, and any decision to amend a map or text of an ordinance.
- (8) Develop and maintain an official map of all mapped zoning district boundaries, amendments, and recordings.
- (9) Establish appropriate penalties for violations of various provisions of the ordinance, including forfeitures. Compliance with the ordinance shall be enforceable by the use of injunctions to prevent or abate a violation, as provided in s. 59.69 (11), Stats.
- (10) Pursue the prosecution of violations of the shoreland ordinance.

27.57 Permits.

- (1) *When Required.* Except where another section of this ordinance specifically exempts certain types of development from this requirement, a permit shall be obtained from the zoning administrator or board of adjustment/committee before any new development.
 - (a) The Zoning Administrator may issue a special permit to relax the standards of this ordinance in order to provide reasonable accommodations as required by provisions of federal and state law. Such relaxation shall be the minimum necessary to be consistent with federal guidelines for accommodation of persons with disabilities and shall, where practicable, be terminated when the facility is no longer used by the disabled person. A person applying for a permit for construction under this section shall establish the nature and extent of the disability and that the relaxation requested is the minimum necessary to provide reasonable use of the facility. A deed restriction or affidavit for the reasonable accommodation shall be filed with the register of deeds.
- (2) *Application.* An application for a permit shall be made to the zoning administrator upon forms furnished by the county and shall include for the purpose of proper enforcement of these regulations, the following information:
 - (a) Name and address of applicant and property owner.
 - (b) Legal description of the property and type of proposed use.
 - (c) A to scale drawing of the dimensions of the lot and location of all existing and proposed structures and impervious surfaces relative to the lot lines, center line of abutting highways and the ordinary high-water mark of any abutting waterways.

- (d) Location and description of any existing private water supply or sewage system or notification of plans for any such installation.
 - (e) Plans for appropriate mitigation when required.
 - (f) Payment of the appropriate fee.
 - (g) Additional information required by the zoning administrator.
- (3) *Expiration of Permit.* Zoning permits shall expire 12 months from date issued if no substantial work has commenced.
- (4) *Certificates of Compliance.*
- (a) No land or building shall be occupied or used until a certificate of compliance is issued by the zoning administrator.
 - (i) The certificate of compliance shall certify that the building or premises or part thereof, and the proposed use thereof, conform to the provisions of this ordinance.
 - (ii) Application for such certificate shall be concurrent with the application for a zoning permit.
 - (iii) The certificate of compliance shall be issued within 10 days after notification of the completion of the work specified in the zoning permit, if the building or premises or proposed use thereof conforms with all the provisions of this ordinance.
 - (b) The zoning administrator may issue a temporary certificate of compliance for part of a building, pursuant to rules and regulations established by the county board.
 - (c) Upon written request from the owner, the zoning administrator shall issue a certificate of compliance for any building or premises existing at the time of the adoption of this ordinance, certifying after inspection the extent and type of use made of the building or premises and whether or not such use conforms to the provisions of this ordinance.

27.58 Special Exception Permits (or Conditional Use Permits).

- (1) *Application for a Special Exception Permit.* Any use listed as a special exception in this ordinance shall be permitted only after an application has been submitted to the zoning administrator and a special exception permit has been granted by the Board of Adjustment. To secure information upon which to base its determination, the Board of Adjustment may require the applicant to furnish, in addition to the information required for a zoning permit, the following information:

- (a) A plan of the area showing surface contours, soil types, ordinary high-water marks, ground water conditions, subsurface geology and vegetative cover.
 - (b) Location of buildings, parking areas, traffic access, driveways, walkways, piers, open space and landscaping.
 - (c) Plans of buildings, sewage disposal facilities, water supply systems and arrangement of operations.
 - (d) Specifications for areas of proposed filling, grading, lagooning or dredging.
 - (e) Other pertinent information necessary to determine if the proposed use meets the requirements of this ordinance.
 - (f) Rationale for why the proposed special exception meets all of the special exception criteria listed in the ordinance
- (2) *Notice, Public Hearing and Decision.* Before deciding whether to grant or deny an application for a special exception permit, the board of adjustment shall hold a public hearing. Notice of such public hearing, specifying the time, place and matters to come before the Board of Adjustment, shall be given as a Class 2 notice under ch. 985, Wis. Stats. Such notice shall be provided to the appropriate office of the Department at least 10 days prior to the hearing. The Board of Adjustment shall state in writing the grounds for granting or denying a special exception permit.
- (3) *Standards Applicable to All Special Exceptions.* In deciding a special exception application, the Board of Adjustment shall evaluate the effect of the proposed use upon:
- (a) The maintenance of safe and healthful conditions.
 - (b) The prevention and control of water pollution including sedimentation.
 - (c) Compliance with local floodplain zoning ordinances and opportunity for damage to adjacent properties due to altered surface water drainage.
 - (d) The erosion potential of the site based upon degree and direction of slope, soil type and vegetative cover.
 - (e) The location of the site with respect to existing or future access roads.
 - (f) The need of the proposed use for a shoreland location.
 - (g) Its compatibility with uses on adjacent land.

- (h) The amount of liquid and solid wastes to be generated and the adequacy of the proposed disposal systems.
- (I) Location factors under which:
 - (i) Domestic uses shall be generally preferred;
 - (ii) Uses not inherently a source of pollution within an area shall be preferred over uses that are or may be a pollution source; and
 - (iii) Use locations within an area tending to minimize the possibility of pollution shall be preferred over use locations tending to increase that possibility. Additional standards such as parking, noise, etc...
- (4) *Conditions Attached To Special Exceptions.* Such conditions may include specifications for, without limitation because of specific enumeration: type of shore cover; specific sewage disposal and water supply facilities; landscaping and planting screens; period of operation; operational control; sureties; deed restrictions; location of piers, docks, parking and signs; and type of construction. Upon consideration of the factors listed above, the Board of Adjustment shall attach such conditions, in addition to those required elsewhere in this ordinance, as are necessary to further the purposes of this ordinance. Violations of any of these conditions shall be deemed a violation of this ordinance.

In granting a special exception permit, the Board of Adjustment may not impose conditions which are more restrictive than any of the specific standards in the ordinance. Where the ordinance is silent as to the extent of restriction, the board may impose any reasonable permit conditions to affect the purpose of this ordinance.

- (5) *Recording.* When a special exception permit is approved, an appropriate record shall be made of the land use and structures permitted. Such permit shall be applicable solely to the structures, use and property so described. A copy of any decision on a special exception permit shall be provided to the appropriate office of the Department within 10 days after it is granted or denied.
- (6) *Revocation.* Where the conditions of a special exception permit are violated, the special exception permit shall be revoked.

27.59 Variances.

- (1) *Variance Criteria to Be Met.* The board of adjustment may grant upon appeal a variance from the standards of this ordinance where an applicant convincingly demonstrates that:
 - (a) literal enforcement of the provisions of the ordinance will result in unnecessary hardship on the applicant;
 - (b) the hardship is due to special conditions unique to the property;

- (c) the request is not contrary to the public interest; and
 - (d) the request represents the minimum relief necessary to relieve unnecessary burdens.
- (2) *Notice, Public Hearing and Decision.* (s. 59.694(6), Stats) Before deciding on an application for a variance, the board of adjustment shall hold a public hearing. Notice of such hearing specifying the time, place and matters of concern, shall be given a Class 2 notice under ch. 985, Stats. Such notice shall be provided to the appropriate office of the Department at least 10 days prior to the hearing. The board shall state in writing the reasons for granting or refusing a variance and shall provide a copy of such decision to the appropriate office of the Department within 10 days of the decision.

27.60 Board of Adjustment. (s. 59.694 Stats) The county executive, county administrator or chair of the county board shall appoint a board of adjustment consisting of 3 or 5 members under s. 59.694, Stats. The county board shall adopt such rules for the conduct of the business of the board of adjustment as required by s. 59.694(3), Stats.

- (1) *Powers and Duties.* (s. 59.694 Stats)
- (a) The board of adjustment shall adopt such additional rules as it deems necessary and may exercise all of the powers conferred on such boards by s. 59.694, Stats.
 - (b) It shall hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by an administrative official in the enforcement or administration of this ordinance.
 - (c) It shall hear and decide applications for special exception permits pursuant to section 27.58.
 - (d) It may grant a variance from the dimensional standards of this ordinance pursuant to section 27.59.
 - (e) In granting a variance, the board may not impose conditions which are more restrictive than any of the specific standards in the ordinance. Where the ordinance is silent as to the extent of restriction, the board may impose any reasonable permit conditions to effect the purpose of this ordinance.
- (2) *Appeals to the Board.* (s. 59.694 Stats) Appeals to the board of adjustment may be made by any person aggrieved or by an officer, department, board or bureau of the county affected by any decision of the zoning administrator or other administrative officer. Such appeal shall be made within 30 days, as provided by the rules of the board, by filing with the officer whose decision is in question, and with the board of adjustment, a notice of appeal specifying the reasons for the appeal. The zoning administrator or other officer whose decision is in question shall promptly transmit to the board all the papers constituting the record concerning the matter appealed.

- (3) *Hearing Appeals and Applications for Variances and Special Exception Permits.* (s. 59.694(6), Stats)
- (a) The board of adjustment shall fix a reasonable time for a hearing on the appeal or application. The board shall give public notice thereof by publishing a Class 2 notice under ch. 985, Stats, specifying the date, time and place of the hearing and the matters to come before the board. Notice shall be mailed to the parties in interest. Written notice shall be provided to the appropriate office of the Department at least 10 days prior to hearings on proposed shoreland variances, special exceptions (conditional uses), and appeals for map or text interpretations.
 - (b) A decision regarding the appeal or application shall be made as soon as practical. Copies of all decisions on shoreland variances, special exceptions (conditional uses), and appeals for map or text interpretations shall be provided to the appropriate office of the Department within 10 days after they are granted or denied.
 - (c) The final disposition of an appeal or application to the board of adjustment shall be in the form of a written resolution or order signed by the chairman and secretary of the board. The final disposition of an appeal or application to the board of adjustment shall be in the form of a written decision document signed by the chairman and secretary of the board. The decision document shall either affirm, deny, vary or modify the appeal and list the specific reasons for the determination.
 - (d) At the public hearing, any party may appear in person or by agent or by attorney.

27.61 Fees. (ss. 59.69, 59.694, 59.696, 59.697, Stats) The county board may, by resolution, adopt fees for the following:

- (1) Zoning permits.
- (2) Certificates of compliance.
- (3) Planned Unit Development reviews.
- (4) Public hearings.
- (5) Legal notice publications.
- (6) Special exception permits.
- (7) Variances.
- (8) Administrative appeals.

- (9) Other duties as determined by the county board.

27.62 Changes and Amendments. The county board may from time to time, alter, supplement or change the regulations contained in this ordinance in accordance with the requirements of s. 59.69(5)(e), Stats., NR 115, and this ordinance where applicable.

- (1) *Amendments.* Amendments to this ordinance may be made on petition of any interested party as provided in s. 59.69(5), Stats.
- (2) *Shoreland Wetland Map Amendments.* (NR 115.04) Every petition for a shoreland-wetland map amendment filed with the county clerk shall be referred to the county zoning agency. A copy of each petition shall be provided to the appropriate office of the Department within 5 days of the filing of the petition with the county clerk. Written notice of the public hearing to be held on a proposed amendment shall be provided to the appropriate office of the Department at least 10 days prior to the hearing. A copy of the county board's decision on each proposed amendment shall be provided to the appropriate office of the Department within 10 days after the decision is issued.

27.63 Enforcement and Penalties. (NR 115.05(4)(j)) Any development, any building or structure constructed, moved or structurally altered, or any use established after the effective date of this ordinance in violation of the provisions of this ordinance, by any person, firm, association, corporation (including building contractors or their agents) shall be deemed a violation. The zoning administrator or the county zoning agency shall refer violations to the district attorney or corporation counsel who shall expeditiously prosecute violations. Any person, firm, association or corporation who violates or refuses to comply with any of the provisions of this ordinance shall be subject to a forfeiture of not less than ten (\$10.00) dollars nor more than two hundred (\$200.00) dollars per offense, together with the taxable costs of action. Each day which the violation exists shall constitute a separate offense. Every violation of this ordinance is a public nuisance and the creation thereof may be enjoined and the maintenance thereof may be abated pursuant to s. 59.69(11), Stats.

- (1) *Penalty.* Any person, firm or corporation, including those doing work for others, who violates any of the provisions of this Ordinance shall be subject to a forfeiture of not less than \$50.00 nor more than \$500.00 for each violation plus the cost of prosecution. Each day a violation exists shall constitute a distinct and separate violation of this Ordinance and as such, forfeitures shall apply accordingly. The Zoning Administrator shall refer violations to the Corporation Counsel who shall prosecute violations.
- (2) *Injunction.* Any use or action which violates the provisions of this Ordinance shall be subject to a court injunction prohibiting such violation.
- (3) *Responsibility for Compliance.* It shall be the responsibility of the applicants as well as their agent or other persons acting on their behalf to comply with the provisions of this Ordinance. Any person, firm or corporation, causing a violation or refusing to comply with any provision of this Ordinance will be notified in writing of such violation by the County Zoning Administrator or his designated Zoning Deputy. Each day a violation exists shall

constitute a distinct and separate violation of this ordinance and, as such, forfeitures shall apply accordingly. Every violation of this ordinance is a public nuisance and the creation thereof may be enjoined and the maintenance thereof may be abated pursuant to Section 59.69(11), Stats.

- (4) *Suspension of Permit.* Whenever the Zoning Administrator, Assistant Zoning Administrator or Deputy Zoning Administrator, determines there are reasonable grounds for believing there is a violation of any provision of this Ordinance, the Zoning Administrator, Assistant Zoning Administrator or Deputy Zoning Administrator shall give notice to the owner of record as hereinafter provided. Such notice shall be in writing and shall include a statement of the reason for the suspension of the permit. It shall allow 30 days for the performance of any act it requires. If work cannot be completed in the 30 day period, an extension may be granted if reason of hardship prevail and can be verified. Such notice or order shall be deemed to have been properly served upon such owner or agent when a copy thereof has been sent by registered mail to owner's last known address or when the owner has been served by such notice by any method authorized by the laws of Wisconsin. The owner of record has the right to appeal any decision by the Zoning Administrator, Assistant Zoning Administrator or Deputy Zoning Administrator or apply to the Trempealeau County Board of Adjustment for a Variance from the strict rule of the Ordinance within 30 days of receipt of a notice or order.
- (5) *Emergency Conditions.* Whenever the Zoning Administrator finds that an emergency exists such as sudden, unexpected occurrences or combinations thereof, unforeseen conditions or circumstances at the time beyond one's control, adverse weather conditions, meeting a timetable which requires immediate action to protect the public health, safety and welfare, the Administrator may, without notice or hearing, issue an order citing the existence of such emergency and may require that such action be taken as may be deemed necessary to meet the emergency. The Administrator shall notify the Chairperson of the Zoning Committee within 24 hours of such situations. Notwithstanding any other provisions of this Ordinance such order shall become effective immediately. Any person to whom such order is directed shall comply therewith immediately. Appeals or challenges to emergency orders may be brought after emergency conditions have ceased, to the Board of Adjustment.

SUBCHAPTER XV – DEFINITIONS.

27.64 General. For the purpose of administering and enforcing this ordinance, the terms or words used herein shall be interpreted as follows: Words used in the present tense include the future; words in the singular number include the plural number; and words in the plural number include the singular number. The word "shall" is mandatory, not permissive. All distances unless otherwise specified shall be measured horizontally.

27.65 Definitions. The following terms used in this ordinance mean:

- (1) “Access and viewing corridor” (NR 115.03(1d)) means a strip of vegetated land that allows safe pedestrian access to the shore through the vegetative buffer zone.
- (2) “Accessory structure” means a subordinate structure on the same property as the principal structure which is devoted to a use incidental to the principal use of the property. Accessory structures include, but are not limited to, detached garages, sheds, barns, gazebos, patios, decks, swimming pools, hot tubs, fences, retaining walls, driveways, parking lots, sidewalks, detached stairways and lifts.
- (3) "Boathouse" (NR 115.03(1h)) means a permanent structure used for the storage of watercraft and associated materials and includes all structures which are totally enclosed, have roofs or walls or any combination of these structural parts.
- (4) “Building envelope” (NR 115.03(1p)) means the three dimensional space within which a structure is built. (Still used in Subchapter ix – Impervious surface section)
- (5) "County zoning agency" (NR 115.03(2)) means that committee or commission created or designated by the county board under s. 59.69(2)(a), Stats, to act in all matters pertaining to county planning and zoning.
- (6) "Department" (NR 115.03(3)) means the Department of Natural Resources.
- (7) “Drainage system” means one or more artificial ditches, tile drains or similar devices which collect surface runoff or groundwater and convey it to a point of discharge.
- (8) “Existing development pattern” (NR 115.03(3m)) means that principal structures exist within 250 feet of a proposed principal structure in both directions along the shoreline.
- (9) "Floodplain" (NR 115.03(4)) means the land which has been or may be hereafter covered by flood water during the regional flood. The floodplain includes the floodway and the flood fringe as those terms are defined in ch. NR 116, Wis. Adm. Code.
- (10) “Footprint” means the land area covered by a structure at ground level measured on a horizontal plane. The footprint of a residence or building includes the horizontal plane bounded by the furthest exterior wall and eave if present, projected to natural grade. For structures without walls (decks, stairways, patios, carports) – a single horizontal plane bounded by the furthest portion of the structure projected to natural grade. Note: For the purposes of replacing or reconstructing a nonconforming building with walls, the footprint shall not be expanded by enclosing the area that is located within the horizontal plane from the exterior wall to the eaves projected to natural grade. This constitutes a lateral expansion under NR 115 and would need to follow NR 115.05 (1)(g)5.
- (11) “Generally accepted forestry management practices” (NR 1.25(2)(b), Wis. Adm. Code) means forestry management practices that promote sound management of a forest.

Generally accepted forestry management practices include those practices contained in the most recent version of the department publication known as Wisconsin Forest Management Guidelines and identified as PUB FR-226.

- (12) “Impervious surface” (NR 115.03(4g)) means an area that releases as runoff all or a majority of the precipitation that falls on it. “Impervious surface” excludes frozen soil but includes rooftops, sidewalks, driveways, parking lots, and streets unless specifically designed, constructed, and maintained to be pervious. Roadways as defined in s. 340.01(54), Wis. Adm. Code, or sidewalks as defined in s. 340.01(58), Wis. Adm. Code, are not considered impervious surfaces.
- (13) “Lot” means a continuous parcel of land, not divided by a public right-of-way, and sufficient in size to meet the lot width and lot area provisions of this ordinance.
- (14) “Lot area” means the area of a horizontal plane bounded by the front, side, and rear lot lines of a lot, but not including the area of any land below the ordinary high water mark of navigable waters.
- (15) “Lot of record” means any lot, the description of which is properly recorded with the Register of Deeds, which at the time of its recordation complied with all applicable laws, ordinances, and regulations.
- (16) “Mitigation” (NR 115.03(4r)) means balancing measures that are designed, implemented and function to restore natural functions and values that are otherwise lost through development and human activities.
- (17) "Navigable waters" (NR 115.03(5)) means Lake Superior, Lake Michigan, all natural inland lakes within Wisconsin and all streams, ponds, sloughs, flowages and other waters within the territorial limits of this state, including the Wisconsin portion of boundary waters, which are navigable under the laws of this state. Under s. 281.31(2)(m), Stats, notwithstanding any other provision of law or administrative rule promulgated thereunder, shoreland ordinances required under s. 59.692, Stats, and ch. NR 115, Wis. Adm. Code, do not apply to lands adjacent to:
 - (a) Farm drainage ditches where such lands are not adjacent to a natural navigable stream or river and such lands were not navigable streams before ditching; and
 - (b) Artificially constructed drainage ditches, ponds or stormwater retention basins that are not hydrologically connected to a natural navigable water body
- (18) "Ordinary high-water mark" (NR 115.03(6)) means the point on the bank or shore up to which the presence and action of surface water is so continuous as to leave a distinctive mark such as by erosion, destruction or prevention of terrestrial vegetation, predominance of aquatic vegetation, or other easily recognized characteristics.

- (19) "Previously developed" means a lot or parcel that was developed with a structure legally placed upon it.
- (20) "Regional flood" (NR 115.03(7)) means a flood determined to be representative of large floods known to have generally occurred in Wisconsin and which may be expected to occur on a particular stream because of like physical characteristics, once in every 100 years.
- (21) "Routine maintenance of vegetation" (NR 115.03(7m)) means normally accepted horticultural practices that do not result in the loss of any layer of existing vegetation and do not require earth disturbance.
- (22) "Shoreland" (NR 115.03(8)) means lands within the following distances from the ordinary highwater mark of navigable waters: 1,000 feet from a lake, pond or flowage; and 300 feet from a river or stream or to the landward side of the floodplain, whichever distance is greater.
- (23) "Shoreland setback" also known as the "Shoreland setback area" in s. 59.692(1)(bn), Stats, means an area in a shoreland that is within a certain distance of the ordinary high-water mark in which the construction or placement of structures has been limited or prohibited under an ordinance enacted under section 59.692, Stats.
- (24) "Shoreland wetland district" (NR 115.03(9)) means a zoning district, created as a part of a county zoning ordinance, comprised of shorelands that are designated as wetlands on the Wisconsin wetland inventory maps prepared by the department.
- (25) "Special exception (conditional use)" (NR 115.03(10)) means a use which is permitted by this ordinance provided that certain conditions specified in the ordinance are met and that a permit is granted by the board of adjustment or, where appropriate, the planning and zoning committee or county board.
- (26) "Structure" (s.59.692(1)(e), Stats) means a principal structure or any accessory structure including a garage, shed, boathouse, sidewalk, walkway, patio, deck, retaining wall, porch or fire-pit.
- (27) "Substandard Lots" means a legally created lot or parcel that met minimum area and minimum average width requirements when created, but does not meet current requirements for a new lot.
- (28) "Unnecessary hardship" (NR 115.03(11)) means that circumstance where special conditions, which were not self-created, affect a particular property and make strict conformity with restrictions governing area, setbacks, frontage, height or density unnecessarily burdensome or unreasonable in light of the purposes of this ordinance.
- (29) "Variance" means an authorization granted by the board of adjustment to construct, alter or use a building or structure in a manner that deviates from the dimensional standards of this ordinance.

(30) "Wetlands" (NR 115.03(13)) means those areas where water is at, near or above the land surface long enough to be capable of supporting aquatic or hydrophytic vegetation and which have soils indicative of wet conditions.

(History: Res. 11/09/1971; Res. 2016-11-06)
